# Thank You

Thank you for taking the time to look through my portrait guide. Joe & I, along with the rest of the crew here at Myhre Studio, take great pride in the portraits we create for families and children. I want you to know that from the time you first call us to the time you hang the finished portrait of your loved ones on your wall, you will receive the small-town personal service that has become so rare in this internet age. You may walk in to the studio a stranger but you'll leave a friend.

As important as personal service is though, you have to absolutely love the images I create of you and your loved ones. Creating art portraits of families and children is, well, an art form in itself. It's a process of juggling personalities, relationships and attitudes along with composition, lighting and exposure; the whole while not letting technical details get in the way of creativity. I feel like Erich Brenn spinning plates on the Ed Sullivan Show. Ed who you ask? Well, you'll just have to look it up on YouTube and find out what I mean.

You don't have to take my word for it though. Take a look through this portrait guide and judge for yourself. I believe when you weigh the quality of the images and the quality of the experience, you'll find that a Myhre Studio portrait should be your first and only choice when considering portraits of your family or children.

## IN THEIR OWN

# Words

“Jim came to our house, worked well with our People, Pets and Children and took Memorable Pictures! You really know how to get the attention of dogs and children, we will work on the adults for you for next time!”

*Angela Foerster*

We actually had fun during the session. We all kind of dreaded the sitting but it turned out to be a very nice and positive experience. Jim was very efficient and the time went very quickly. We loved being in our own backyard. The colors are beautiful in the portrait. Everyone of is satisfied with how we look and with three women, that is saying something!

“You have incredible patience and brought humor into the session which helped us all relax.”

*Becky and Chris Hein*

**“(Our session was) Fun! Jim allowed us to choose our own outdoor photo sites (one of which involved wild buffaloes!). He gave us wardrobe ideas that were very helpful, especially with a large group. He works well with all ages of clientele (from squirrely little squirts to old grandpa types who can be obnoxious). He’s very professional, yet very down to earth and easy to communicate with.”**

# Price Points

Designed to be a family heirloom, our portraits are printed with the finest materials available. Standard prints are coated with a protective finish and mounted to pH balanced art board or foam board for archival stability and resistance to attack by Frisbees and footballs. Canvas prints are hand coated with a thick laminate and then mounted to foam board or, in the case of our gallery wraps, are stretched over 1-1/2 inch stretcher bars so the print can wrap around the edge.

Wall portraits start at 16" and packages that include a wall portrait come with a complimentary frame on the largest size

- Portrait packages start at \$399 and represent a 20% savings.
- Gift sizes start at \$99
- Wall Portraits start at \$999

Because of the different poses, expressions and beautiful locations, clients interested in only a few gift portraits spend \$400-\$800. Those interested in a wall portrait and gift portraits spend \$800 to \$1200 or more. Clients who want a Canvas Wall Portrait, a Framed Collage and an album spend in excess of \$3500.
